

## AV Consultants Supporting Meraki Refreshes

These AV companies are on call to answer questions about the AV systems in the church meetinghouses, e.g., how they connect to the network.

**Note:** If your assigned AV company is unavailable, and if your question is urgent, you may call the other AV company.

| Contractors Performing the Network Upgrades                                                                       | Assigned On-Call AV Company                                                                                                                                                                                                                                                                                                                                                                                                            | Availability to Take Calls    | Instructions                                                                                                                                                                                                             |
